free initial conversation at your
premises to discuss your needs. 🗨️

Welcome to

boston IT

Local IT support for businesses in and
around the Bournemouth, Poole and
Southampton areas

If you're a small to medium
sized business in need of some
experienced and professional
IT support, then we're the
company to help!

Boston IT specialises in
providing IT support and
offers its clients a reliable and
efficient service. The unique
service provides advice and
maintenance support for your
current IT infrastructure or the
set up and development of a
new IT network.

WE ARE YOUR I.T DEPARTMENT

- * Do you need someone on
hand to solve your IT problems?
- * Do you need a new or
updated IT system to cope with
your business demands?
- * Do you just wish your IT systems
could make your business run
more smoothly and
more efficiently?

boston IT
protecting the heart of your business

boston IT Limited
prides itself in the provision
of a jargon free,
understandable service.

We've refined and continue to
amend and develop our services
in order to provide widespread
solutions, configured specifically
with your business needs in mind.

All of our services are adapted
to meet our clients' needs,
ranging from adhoc call outs on
an 'as and when' basis to long
term monitoring. If you're a
company that's growing but
feels as though you're being
held back by your IT systems, let
Boston IT take some pressures off
you.

**The range of services we
offer to our clients are:**

- Workstations, servers and printer sales, installation, configuration and maintenance
- Network infrastructure, routers and broadband services
- Company email and domain registration
 - Onsite service and support
 - Remote VPN support
 - IT consultancy
 - Disaster recovery service
 - Professional tape back up service
 - Virus protection and virus removal
- All Microsoft operating systems supported, including Server 2003, exchange 2005, SQL 2005, XP Professional and Vista Business

“ Boston IT brought our
engineering company
into the 21st century,
installing a whole IT
system from scratch. A
company that can be
relied on to listen to your
specific requirements
and advise accordingly. ”
